CONTROL AND COMMAND

controlandcommand.com

AFC Industries was established in 1994 as a family owned business that specializes in the design and construction of ergonomic products. In today's high-risk world, security has increasingly become an operational imperative for many organizations. We offer unparalleled attention to detail and experience when creating mission critical solutions for every client we serve.

COMMAND SERIES

Our **Command Series Consoles** are designed to facilitate a smooth workflow and are ideal for monitoring constant streams of information supplied by surveilance equipment. Create your own panoramic view of critical areas using multiple monitors and configurations.
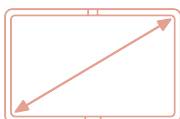

Supports Monitor Size

MAX	100"	x1
MIN	19"	x18

772316

Features and Benefits

- Monitor platform with manually height adjustable monitor rail system for different size monitors
- Z-arm mounts, in two rows on the left and right ends, can be adjusted to set optimum focal lengths
- All mounts can slide along rail system for additional positioning
- Two three-drawer pedestals front facing
- Two rear access cabinets and three rear shelves are ideal for CPU storage
- Glides

Specification

Width: 12'6"

Depth: 54"

Height: 85"

Designer drawer and shelf pedestals come with optional doors and/or casters

Custom monitor support structures
built into desks can accommodate
monitors of different sizes, shapes,

Monitor Mount Arms

VESA-compliant monitor arms mount all monitors

75"

Lockable Storage Cabinet
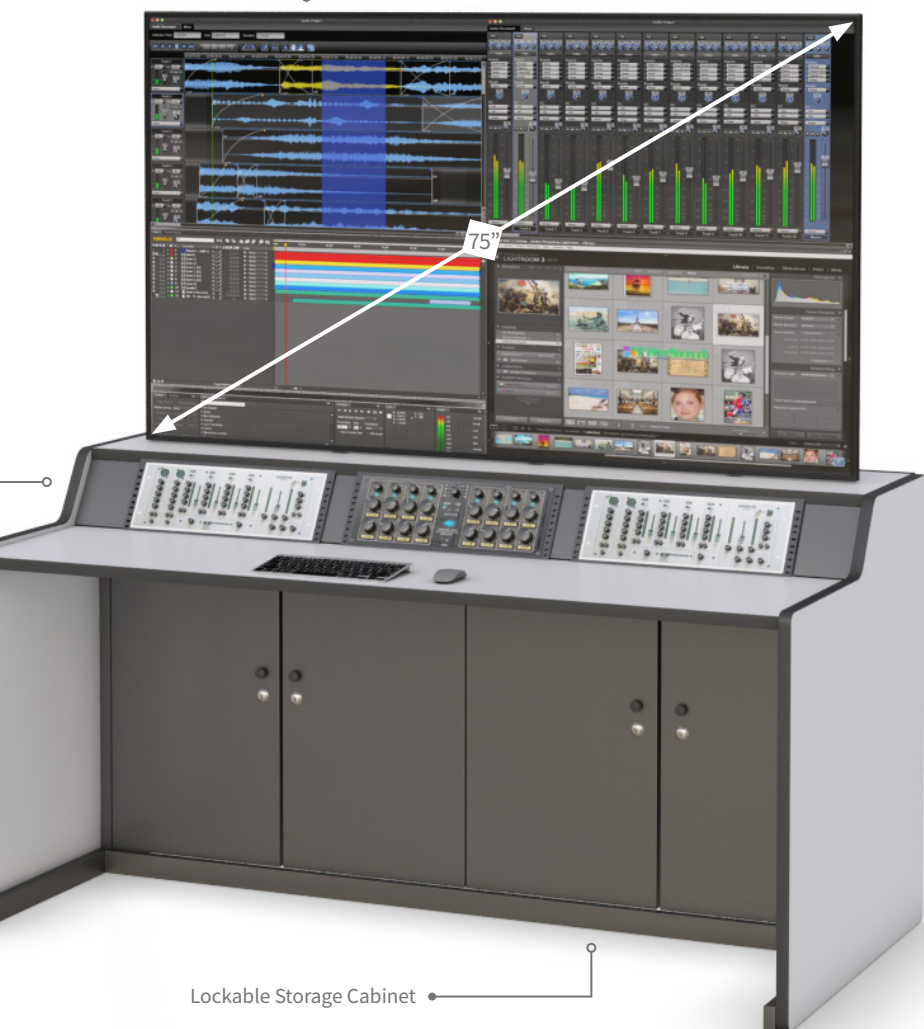

VIDEO WALLS

The **Video Wall** consists of one or more tracks for sliding the monitor arms from left to right, where every single arm allows tilting up-down and left-right, as well as micro-adjustments to eliminate gaps between mornitors. Z-arms give each monitor an ample range of motion, allowing you to position them in several different viewing arrangements.

Supports Monitor Size

MAX	**75" - 100"**	**x1**
MIN	**19"**	**x15**

Features and Benefits

- Aluminum track with mounting holes and safety stopper at both ends allows monitor holders to slide
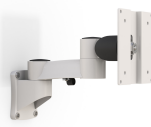

- Horizontal or vertical mounting of tracks

- Z-arm monitor holders with extension, tilt, and pan motion; arms have varying length to provide parabolic shape for optimum viewing

- VESA-compliant monitor holder that can be adjusted from portrait to landscape views and tilted to avoid glare

- Combination setup allows horizontal and vertical adjustment of the monitors

- Monitor extends from 4" to 20" from the wall

Specification

Track Width: 66" (expandable to specifications)

VIDEO WALL STAND

There has been a significant increase in the use of **Video Wall Stands** in many applications. Due to their size, they have a high visual impact and have become a notable way for Organizations to get their messages across internally or in the public arena. Additionally, applications such as command and control, message boards, and showrooms have all contributed to the growing popularity of video wall stands. Today's digital video wall solutions are ideal for dynamic digital signage and informational display needs.

Features and Benefits

- Large monitor holder
- Adjustable floor glides
- Stable stand
- Connection brackets

FREE Design Service

We want to use our many years of experience creating spaces to take full advantage and help you go beyond your imagination. With some of the most mechanically advanced products, we will help you achieve your goals, all at no additional cost to you.

Customization

AFC can easily customize all products to adapt to your professional and individual requirements. Whether you need help choosing the right components to configure a product or are considering a complete room redesign, our staff is committed to offering you assistance every step of the way.

Delivery

We deliver our products fully assembled to ensure maximum quality and convenience for our customers.

COMPLIMENTARY SERVICE

Anti-microbial Paint

AFC now offers the added protection of anti-microbial powder-coat finishes on its products to provide protection against a broad spectrum of bacteria and micro-organisms. When applied to wall mounts, and work stations the risk of spreading harmful bacteria and viruses is greatly reduced.

High-density Polyethylene (HDPE)

A new kind of anti-microbial protection upgrade now available in many of AFC's polymer sheets, slabs and massive shapes. HDPE helps products stay cleaner between cleanings and inhibits the growth of product-damaging microorganisms, including bacteria, algae and fungi on the surface. Microbe cell walls that come into contact with HDPE are destroyed on contact, without creating opportunities for adaptive or resistant strains to form. Because the anti-microbial agent is bonded at the atomic level throughout the sheet, it will not leach out of the product. This means the agent retains its effectiveness throughout the life of the product and does not harm the environment.

Utilizing the HDPE anti-microbial work surface reduces the risk of contracting germs or bacteria from one work station to the next, this is particularly evident in a multi-user environments, such as a dispatch centers, control rooms, security surveillance stations and transportation hubs.

It is safe, non-toxic and non-hazardous to ship and handle. The product is EPA-registered and listed with the FDA as a modifier to medical devices.
